Subj: PROMULGATION OF VOLUME II (NAVY ENLISTED CLASSIFICATIONS)
OF THE MANUAL OF NAVY ENLISTED MANPOWER AND PERSONNEL
CLASSIFICATIONS AND OCCUPATIONAL STANDARDS, NAVPERS 18068F
OF APRIL 2004

1. Volume II of NAVPERS 18068F is the official manual of Navy Enlisted Classifications (NECs) code identification for enlisted personnel and billets. This edition includes the latest information available at the time of revision.
2. The effectiveness of this manual in providing correct and timely identification of skilled personnel and requirements depends upon support from all command echelons. Command activities are encouraged to forward recommendations concerning NEC changes, establishment, or disestablishment.
3. Requests to have an activity added to the CD-ROM automatic distribution list should be addressed to the following:

Address

Department of the Navy
Navy Personnel Command
Attn: PERS 013
5720 Integrity Drive
Millington TN 38055-0130

and contain the following pertinent information:

Standard Navy Distribution List Number (SNDL)
UIC
Activity Name
Address
Activity Acronym
Attention Code
Phone Number and Point of Contact
Number of CDs required
Justification

To request address corrections only E-Mail to:

SUMMARY OF CHANGES

The NEC manual is published quarterly (JAN, APR, JUL, OCT) to provide updated NEC information in a timely manner. Changes (additions, deletions, revisions) to NECs identified by code numbers listed below were made in this revision. Revised NECs are those for which a significant change was made (title change, description, course information, sequence code, source rating, component NEC, note). Revisions to the manual are shown in shaded print.

CHAPTER I

INTRODUCTION TO THE NAVY ENLISTED CLASSIFICATION SYSTEM

A. PURPOSE

1. The Navy Enlisted Classification (NEC) system, of which the NEC coding system is a part, supplements the enlisted rating structure in identifying personnel on active or inactive duty and billets in manpower authorizations. NEC codes identify a non-rating wide skill, knowledge, aptitude, or qualification that must be documented to identify both people and billets for management purposes.

2. The NEC coding system facilitates management control over enlisted skills by identifying billets and personnel and enhancing efficient use of personnel in distribution and detailing. In cases where NECs reflect special training, inventories of coded billets and coded personnel are also the basis for planning and controlling input of personnel into formal courses that earn NECs. Consequently, the continuing enlisted strength of the Navy, particularly petty officer allocations, and funds authorized for rating and specialty training depends, to an increasing extent, upon the accuracy, thoroughness, and timeliness of NEC coding. Personnel required to support ratings and special programs must be identified by the correct combinations of rates and/or NECs.

B. TYPES OF NECS

1. *Entry Series NECs* consist of Rating Conversion and Occupational Area - Defense Grouping (DG) NECs.

a. *Rating Conversion NECs* identify aptitudes and qualifications not discernible from rates alone and are assigned to identify petty officers or identified strikers who are in training for change of rating or status under approved programs.

b. *Occupational Area - Defense Groupings (DG) NECs* relate to groups of ratings for which there is an identification requirement. These NECs appear as DG-9700 through DG-9780, which reflect the location of Navy ratings in the Department of Defense Occupational Conversion Manual, Enlisted. The third digit in the codes specifies the DoD Occupational Area Grouping Code used in the DoD Occupational Conversion Manual. USN and USNR personnel in paygrades

E-1 through E-3 (not already "rating associated" by HM or DT apprenticeship rates or by striker identification) must be assigned an appropriate DG NEC that identifies and indicates that these individuals have received training, are in training, or have aptitude for training in the areas identified by the DG code.

2. *Rating Series NECs* relate to a limited number of specific ratings. Rating Series NECs identify special or unique billet requirements beyond the skill and knowledge that the general rating would provide. When assigned to an individual, Rating Series NECs show that the person has obtained certain skills or knowledge and is qualified for detailing to a billet requirement.

3. *Special Series NECs* have the same purpose as Rating Series NECs but in general, relate to an unlimited number of ratings.

4. *Alphanumeric NECs* are used to identify discrete skills and training levels when justified by the complexity of training and management requirements. Alphanumeric NECs require dedicated personnel support to monitor and manage because of the intricacies of coordinating resources and support systems. Therefore, recommendations for alphanumeric NECs are to be submitted only through Warfare or Resource Sponsors after a development process that completely addresses all the elements required to make the program successful. These elements include:

a. Development of a training structure, in cooperation with appropriate training program coordinators.

b. A definite plan or program for tracking the inventory or requirements and personnel assets.

c. A commitment from the Warfare or Resource Sponsor to provide dedicated support personnel to management and monitoring of the program. Decisions on the feasibility of expanding use of alphanumeric NECs will be based on experience gained from the submarine community alphanumeric NECs. Use of alphanumeric NECs is limited to submarine ET and RM ratings and rating conversion NECs. Use of alphanumeric coding may be opened to other ratings only when all numeric codes have been depleted.

5. *Numerical NECs* not included in Rating Series or Special Series are grouped under

EOD/DIVER/SEAL, Nuclear, Aircrew or Aircraft Systems Maintenance.

6. **Planning NECs** are NECs approved for planning purposes only and are listed in Chapter V of this manual. These NECs may be used in conjunction with Navy Training Plans, in developing planned training courses, and other applicable long-range projects. Planning NECs listed in Chapter V may be written in manpower authorizations to project requirements and used for other planning purposes; however, they are not assigned to personnel.

Submit requests for planning NECs to Commanding Officer, Navy Manpower and Analysis Center (NAVMAC) (Code 12) via the chain of command. A request must include a proposed title, a ready-for-training date (actual or estimated), billet paygrades, and point of contact. Submit requests to convert approved Planning NECs to Rating or Special series NECs 180 days before the date the NEC is to be awarded (i.e., 180 days before completion of initial course or factory training). Appendix A identifies requirements for establishing new NECs.

C. NEC CODE RELATIONSHIPS

1. **Principal NECs** identify stand alone skills and may include skills or abilities identified by Component and/or Related NECs. To earn a Principal NEC that includes a Component NEC, an individual must either already be assigned the Component NEC(s) or be fully qualified for such assignment. When an individual earns a Principal NEC, the individual will not be coded with the Component NEC listed with the Principle NEC. Component NECs are removed from the Enlisted Master Record (EMR) when a principal NEC is awarded.

2. **Component NECs** are prerequisite qualifications for assignment of the Principal NEC. Chapter IV lists component NECs with the Principal NEC with which they are associated.

3. **Related NECs** identify qualifications generally similar to those of the Principal NEC but are not prerequisites for earning the Principal NEC. Chapter IV lists Related NECs with the Principal NEC with which they are associated and are shown for information purposes only.

4. NEC Sequencing

a. NAVMAC (Code 10) has approval authority regarding the assignment of Sequence codes for proposed NECs. NAVMAC ensures adherence with

established guidelines and will coordinate any exceptions with the ECM.

b. Change of Sequence codes are handled as an NEC revision and staffed for concurrence from Primary Advisor, Technical Advisor and ECM.

c. The primary consideration used to make a recommendation to determine assignment of a Sequence code is NEC seniority. An Operator NEC will have a "lower" position than a maintainer NEC; a basic maintainer/technician NEC will have a "lower" position than an advanced maintainer/technician and so on.

d. Sequence codes (positions) will be determined using the following guidelines:

<u>Paygrade</u>	<u>Criteria</u>	<u>Position</u>
E1/2/3	Entry series or Conversion NECs only	1 (1)
E7/8/9	Senior Enlisted management NECs (i.e., 1332, 4206, 8300, 9580).	2
E5/E6	Supervisor/Management, Advanced Technical and Operational/Fleet Critical NECs.	3
E3 to E8	Operator, Maintainer, Analyst NECs (Career) and Special Warfare, EOD/Diver/SEAL PNECs.	4 (2)
E4/E5	Intermediate level Technical, Operator/maintainer NECs and Fleet critical E4 NECs (i.e., BM-0170 Surface Rescue Swimmer).	5
E3/4	First Tour/Initial NECs, Basic Operator, Organizational Maintenance.	6 (3)

<u>Paygrade</u>	<u>Criteria</u>	<u>Position</u>
Special Series NECs	Technical or Supervisor in nature. NECs that may be used again (i.e., Microminiature Repair, Instructor, Safety). Non-Technical single-use NECs (i.e., Recruit Instructor, Correctional Counselor) and personnel as candidates or under training (i.e., 5301, 8201, 9901).	7 8

Notes: Sequence Codes are determined by considering both Paygrade and Criteria to assign position (number).

1. Position 1 is reserved for Defense Grouping (DG) and Conversion NECs only. Defense Grouping NECs apply to non-designated E1/2/3 personnel who have attended some type of rate group (i.e., Seaman, Airman, Fireman, Constructionman) familiarization training before reporting to the fleet. Conversion NECs identify Petty Officers or strikers who are in training for change of rate or status under approved programs.

2. NECs encompassing a broad range of paygrades (E3-E8) will have a Sequence Code assigned that reflects the paygrade level having the largest number of billets/requirement for that NEC.

3. When an NEC is a component of/or a building block to a more advanced NEC, the Sequence Code assigned to the component NEC will normally be assigned a "lower" position than the principle NEC.

4. In cases where an individual earns two or more NECs with the same sequence code number, the NEC code that the individual most recently qualified for will take precedence except in unusual circumstances. NEC sequence code numbers are shown in Chapter IV.

5. **Source Ratings** are listed with each Rating Series NEC.

a. Rating Series NECs will be assigned only to personnel in designated source ratings or the apprenticeship rates and/or striker-identified rates applicable to a designated source rating including DG NEC-identified personnel leading to designated source ratings.

b. Personnel should be nominated or sent to courses of instruction earning NECs only if they are in the proper source rating or apprenticeship.

c. Personnel already specialized by a Rating Series NEC normally should not be nominated or sent to a course of instruction earning an additional NEC unless the course is a logical progression of the earlier specialty training, the NEC held embodies an outdated technology, or they are in an approved program for formal conversion to a new rating.

6. **Paygrade restrictions** for assignment of NECs to individuals and for application to billets are listed in Chapter IV. Refer to Chapter V for paygrade information for Planning Series NECs. Billet paygrades

for NECs are provided as guidance in changing or recommending changes to Activity Manpower Document (AMD) or other enlisted manpower documents. The billet paygrade range information is based on one or more of the following:

a. Personnel paygrade restrictions (see Chapter IV).

b. Training course prerequisites contained in the Catalog of Navy Training Courses (CANTRAC) (NAVEDTRA 10500).

c. Authoritative judgment obtained from BUPERS Enlisted Community Managers, Primary Rating Advisors, and others possessing specialized knowledge.

d. Data provided in research studies and analyses.

D. NEC CODING USED IN MANPOWER, PERSONNEL AND TRAINING INFORMATION SYSTEM (MAPTIS)

1. An NEC is assigned to an individual when it is recorded in the Manpower, Personnel and Training Information System (MAPTIS). Page 4 service record entries reflect these authorized assignments as a 4-digit primary (PNEC) and a 4-digit secondary (SNEC) code. "0000" is used where no Entry, Rating, or Special Series NEC is assigned.

2. Entry Series NECs are always primary and are not removed until an individual has advanced to petty officer status, becomes an identified striker, or changes rating status.

3. Special Series NECs are always SNECs or lower.

4. Rating Series NECs are PNECs, SNECs, or lower (depending on the number of NECs earned by an individual) but may not replace an Entry Series NEC unless the individual has advanced to petty officer status, has become an identified striker, or has changed rating status.

E. APPLICABLE COURSES AND ON-THE-JOB TRAINING

Formal courses of instruction, satisfactory completion of which will earn an NEC, are listed in Chapter IV with the applicable NEC. If a formal course is mandatory for earning an NEC, it will be shown in Chapter IV.

Chapter IV will also show if a NEC may be awarded through on-the-job training (OJT) or, if appropriate, through factory training. See NEC assignment information for personnel (Chapter IV paragraph B.4) for additional information on recommending personnel for NECs based on OJT.

CHAPTER II

RESPONSIBILITIES AND PROCEDURES

A. AUTHORITIES AND RESPONSIBILITIES

1. *The Chief of Naval Personnel (CHNAVPERS)* is responsible for the formulation and implementation of the NEC coding system and for maintaining technical control over the entire NEC system per MILPERSMAN. Authorities and responsibilities delegated by CHNAVPERS, as per MILPERSMAN 1221-010, are outlined below.

2. *The Commanding Officer, Naval Reserve Personnel Center (NRPC)* is responsible for administering the NEC coding system for enlisted personnel not on active duty. In this regard, the Chief of Naval Reserve and the naval reserve readiness commanders will continue to monitor NEC coding efforts by inspections and through the Reserve Field Reporting System (RESFIRST). This includes certification, where appropriate to the Commanding Officer, Naval Reserve Personnel Center, of PN-2612 and Rating Conversion NEC assignments and cancellations.

3. *The Commanding Officer, Enlisted Personnel Management Center (EPMAC)*, in coordination with the Chief of Naval Personnel (CHNAVPERS), is responsible for effective use of NEC information in the distribution, placement, and detailing of enlisted personnel.

4. *Commands conducting courses of instruction* that award NECs are responsible for reporting on students per CNETINST 1510.1 series.

5. *Enlisted Classification Units*, under the technical direction of the CHNAVPERS, are responsible for reviewing NECs, correcting DG Codes where necessary, and recommending coding assignments or cancellations directly to EPMAC (Code 49) or the Commanding Officer, NRPC, as appropriate.

6. *All commands* are responsible to ensure that only personnel in proper source ratings are afforded training in NEC specialties, for making recommendations for NEC identification of billets in their manpower authorizations, assigning or changing DG NECs per this manual, and recommending assignment or cancellation of all other NECs per this manual.

B. INSTRUCTIONS FOR ASSIGNING AND CANCELING NECs

1. *NECs (except Defense Grouping NECs)*, may be assigned or canceled as follows:

a. By commands conducting formal courses of instruction submitting reports per CNETINST 1510.1 series.

b. By Enlisted Classification Units submitting recommendations to EPMAC (Code 49) for accessions to active duty.

c. By the Commanding Officer, EPMAC (Code 49) for active duty personnel.

(1) Assigning NECs to personnel through on-the-job training or where not otherwise reported via the Navy Integrated Training Resource and Administration System (NITRAS).

(2) Coordinating requests to waiver NEC award requirements with CNO (N132) cognizant Enlisted Community Manager, as appropriate.

d. By the Commanding Officer, NRPC for inactive duty personnel based on recommendations received from naval reserve commands and units.

e. An individual's NEC assignments, as authorized above, are those recorded in MAPTIS. When notified of changes by receipt of EPMAC 1221/2, commands will record these changes with page 4 service record entries using award date indicated on EPMAC 1221/2. Do not report NEC assignments to EPMAC by personnel diary or to NRPC by RESFIRST entries.

2. *Defense Grouping NECs*. Individual commands and drilling units are directly responsible for assigning and changing DG NEC codes as follows:

a. For personnel in paygrades E-1, E-2, and E-3 who are not identified strikers or are not in the HM or DT apprenticeship rates:

(1) Assignment may be changed to another DG NEC but may never be replaced with "0000".

(2) Personnel in Class A level training who were assigned DG NECs as recruit graduates do not have to be recoded while undergoing courses of instruction, unless disenrolled.

b. In the above cases, record the DG NEC code assignment or change by a page 4 service record entry and report this assignment or change by a personnel diary or RESFIRST NEC entry. All eight digits must be reported.

c. If an individual with an Entry Series code holds a Rating Series code, the NEC code may be changed only by submitting a EPMAC 1221/2 to the Commanding Officer, Enlisted Personnel Management Center (EPMAC) (Code 49) or to Commanding Officer, Naval Reserve Personnel Center as appropriate. This exception does not apply to an individual holding a Special Series code.

d. For personnel holding DG NECs who become identified strikers or petty officers:

(1) Cancel DG NEC by page 4 service record entry.

(2) Do not report cancellation of DG NEC by personnel diary or RESFIRST entry. These NEC codes will be automatically canceled in the Manpower, Personnel and Management Information System (MAPMIS) when the correct rate change or advancement is reported and accepted by the CHNAV-PERS or Commanding Officer, NRPC, as appropriate. Canceled codes will continue to appear on at least one EDVR or RESFIRST pending adjustment of NECs.

3. **NECs for Personnel.** Individual commands and drilling units are responsible for recommending assignment or cancellation of all NECs other than Entry Series NECs as follows:

a. *Active Duty*

(1) USN and USNR, including TAR: to Commanding Officer, Enlisted Personnel Management Center (Code 49).

(2) Exceptions to the normal award criteria, including waivers, are to be made to EPMAC (Code 49) via endorsing commands per current OPNAV, BUPERS, NRPC instructions or as noted in

Chapter IV of this manual as a specific note to that NEC. Chief of Naval Operations, Head Enlisted Community Management (N132) will provide policy guidance to EPMAC concerning NEC removals and award criteria. Exceptions include:

(a) Nuclear Propulsion Plant Operator (33XX): OPNAVINST 1220.1 (series) (NOTAL) contains amplifying instructions and additional criteria for removing or changing NECs used to designate personnel trained as Nuclear Propulsion Plant Operators (Surface and Submarine). Submit EPMAC 1221/2 for these personnel directly to CNO (N132).

(b) Remove submarine related NECs via Head, Nuclear Power/Submarine Assignment Branch (Pers-403). Of special note, submarine disqualifications and reinstatements will be per the Enlisted Transfer Manual (NAVPERS 15909), Chapter 5 and the MILPERSMAN 1220-040, with Pers-403 as the final adjudicator.

(c) HM/DT NEC removals and waivers of mandatory courses of instruction will in all cases be forwarded by EPMAC to CNO (N13) for adjudication.

(1) HM/DT personnel holding an NEC beyond the prescribed paygrade cap will not have their NEC removed without CNO (N132) approval. This is to facilitate the management of critical specialties as the inventory paygrade ceilings transition to match billet paygrade ceilings while ensuring the strength of each community adequately sustains mission requirements.

(2) HM/DT personnel who lose their NEC for misperformance or disciplinary reasons will have the NEC removed from the Enlisted Master Record. Commands are required to provide appropriate supporting documentation, (i.e., special evaluation). NEC removals should not be used in place of administrative separation proceedings or forced conversions.

(3) Certification/recertification of clinical proficiency is the responsibility of the member. Failure to attain and maintain clinical proficiency is ground for NEC removal, loss of remaining SRB entitlement, and reassignment as an HM "0000."

NOTE: With current policies and instructions in place to establish the validity of an individual's NEC qualifications, the via endorsement will be the determining factor in the award or removal of the NEC from the individual's Enlisted Master Record.

b. *Inactive Duty*

(1) All Rating Conversion codes: to the Commanding Officer, Naval Reserve Personnel Center via cognizant Naval Reserve Readiness Commander or Chief, Naval Reserve as appropriate.

(2) Intelligence Specialist personnel in paygrades E-7 and below: to Naval Intelligence Command (NIC-13), 4600 Silver Hill Road, Washington, D.C. 20389-5000 via Commanding Officer with the following documentation:

(a) Inactive Navy Enlisted Classification Code Change Recommendation (EPMAC 1221/2).

(b) Certified copies of last three enlisted evaluations.

(c) All Navy Occupational, Training and Awards History (NAVPERS 1070/604 Rev 11-81).

(3) Restricted NECs (Non-traditional training or experience): to the Commanding Officer, Naval Reserve Personnel Center via cognizant Naval Reserve Readiness Commander/ISIC and Chief of Naval Reserve with the following documentation:

(a) Inactive Navy Enlisted Classification Code Change Recommendation (EPMAC 1221/2 Rev 6-92), including justification for assignment of requested NEC.

(b) Certified copies of substantiating documentation (degree, vocational certificates, professional licenses, etc.).

(c) Current job description if NEC requested is based on civilian work experience.

(4) Commanding Officer, Naval Reserve Personnel Center will take appropriate action upon receipt and if applicable forward the package, including coordination of request to waiver NEC requirements with CNO (N13) cognizant Enlisted Community Managers, to the program Technical Advisor for final determination or certification.

C. GENERAL ASSIGNMENT AND CANCELLATION INFORMATION

1. Personnel are automatically assigned NECs upon satisfactory completion of applicable courses through the Navy Integrated Training Resource and Administration System (NITRAS) as outlined in CNETINST 1510.1. This ensures faster NEC assignments and reduces paperwork at the command level. NECs earned through OJT and factory training are not automatically assigned, therefore, increased command attention is required to recommend fully qualified personnel for these NECs. In those cases where NEC assignments are not restricted to mandatory completion of applicable courses or factory training, recommendations can and should be forwarded for assignment of NECs based on OJT. The length of OJT is normally at the discretion of individual commanding officers, however, six to twelve months, depending on the complexity of the NEC, should be considered minimum. Specific requirements for NECs are listed in Chapter IV as "NOTES" under an NEC or NEC group heading. Commanding Officers must ensure that these specific requirements, including any component NECs, are successfully completed.

2. Individuals must either hold or be qualified to hold the component NECs. To recommend personnel for an NEC use the Navy Enlisted Classification Code Change Recommendation (EPMAC 1221/2) for active and inactive duty personnel. See Appendix A for additional information and instructions for NEC recommendations.

3. When recommending new NEC assignments, review qualifications for NECs presently held and provide comment, particularly in those instances where a positive requirement exists for maintaining NEC qualifications in accordance with an established criteria, (e.g., Aircrewman qualifications).

4. Close command attention is required for recommending cancellation of NECs. This requires command recommendations to cancel NEC assignments in cases where enlisted personnel do not perform their NEC duties satisfactorily, normally within six months after reporting aboard. Failure to recommend NEC cancellation may result in these unqualified or unsatisfactory performers being reassigned under the NEC, possibly resulting in manning or readiness problems for a new command or in the failure to assign sufficient qualified personnel to current command.

Note: Appendix A provides instructions on how to prepare and submit recommendations for establishing, deleting, or revising NEC codes.

D. COMMAND REQUESTED BILLET NEC CHANGES

1. Procedures are specifically noted in the Manual of Navy Total Forces Manpower Policies and Procedures (OPNAVINST 1000.16 series). The specific information required and format to be followed for each situation is provided in detail.

2. Of special interest, the Activity Manpower Document Short-format Change Request applies to NEC changes being requested for authorized billets. The request format is found in OPNAVINST 1000.16 and applies to military ships and squadrons only. It is provided for requesting minor changes to reduce the response time. The changes that may be requested by use of the short-format change request are restricted to:

a. NEC changes for billets incident to authorized equipment changes. Not authorized using short-form change requests are changes for aircrew, instructor or counselor NECs.

b. Correction of typographical errors noted in Manpower Authorizations, (i.e., billet titles).

3. Submit Activity Manpower Document (AMD) change requests to Navy Manpower Analysis Center (Code 20) via chain of command, (i.e., type commander/manpower claimant. Clearly substantiate the request and attach required supporting documentation.

CHAPTER III

NAVY RATINGS AND ENTRY SERIES NECS

Paragraph A of this section identifies the current Navy ratings. Paragraphs B and C identify the Entry Series NECs used by detailers and classifiers. There are two kinds of Entry Series NECs (1) Rating Conversion and (2) Occupational Area - Defense Grouping.

A. NAVY RATINGS

1. General Ratings (SECNAV Approved): Identify personnel from paygrades E-4 through E-9. They provide the primary means of identifying billet requirements and personnel qualifications. Each rating has a distinctive rating badge.

2. Service Ratings (CNO Approved): These are subdivisions of certain general ratings. Service Ratings identify required specialization and specific areas of qualifications in the utilization and training of personnel. The rating badge for a Service Rating is the same as that for the General Rating.

3. Compression Ratings: Identify the combining of several General or Service Ratings at paygrade E-9 to form broader career fields when the occupational content is similar. These ratings exist only at the E-9 level and are not identified previously as a General or Service Rating. Each Compression Rating has a distinctive rating badge.

4. General Rate: Identify personnel occupationally in paygrades E-1 through E-3.

CHAPTER IV

RATING SERIES AND SPECIAL SERIES NECS

A. PURPOSE

Rating series NECs are for a limited number of ratings and are used for billet requirements and personnel assignment. Rating series NECs identify billet requirements (skill/knowledge requirements) beyond the skill and knowledge that the general rating would provide. Rating series NECs are also assigned to an individual to show that the person has obtained certain skills or knowledge and is qualified for detailing to a billet requirement.

Special series NECs have the same purpose as Rating series NECs but in general, relate to a large number of ratings.

NECs throughout the manual are listed in numerical sequence and not by rating. Chapter 3, Rating Conversion NECs may be used as an index to help locate specific rating NECs.

Headings associated with NEC descriptions identified in this chapter are defined in paragraph B. Shaded print denotes a revision to a previous entry.

B. DEFINITIONS

1. SOURCE RATINGS. Ratings eligible for NEC award.

2. BILLET PAYGRADES. This information is presented as a guidance in writing billets on Activity Manpower Document (AMD). Low/High paygrades reflect the lowest and highest paygrades that can be written for billets identified by the NEC. Commands requesting changes to manpower authorization should comply with these paygrade limits.

3. PERSONNEL PAYGRADES. The NEC may be assigned only to personnel in paygrades indicated.

4. COURSE. Identifies whether completion of a training course(s) is a mandatory requirement for assignment of the NEC or whether the NEC may be earned through OJT (On-the-Job-Training), (i.e., based on qualification through on-the-job training). If the length of OJT is not specified, it shall normally be a minimum of six months.

5. COURSE IDENTIFYING NUMBER (CIN) OR AMPLIFYING DATA. The Navy Course Identifying Number (CIN), Army number, Air Force number, or other applicable descriptive information. The Navy CIN is obtained from the Navy Integrated Training Resources and Administration System (NITRAS). If blank, the NEC is awarded through a combination of one or more Component NECs or on-the-job training, or assignment of NEC has been discontinued.

6. CDP FROM NITRAS. The Course Data Processing Numbers(s) assigned to formal training courses included within NITRAS per CNETINST 1510.1. They are used by the Bureau of Naval Personnel and training activities for reference purposes.

NOTE: CIN/CDP data used in Chapter IV is based on CNET reports N02182 (Skill Verification) and N0297 (Umbrella Skill Verification) quarterly report and is subject to change.

7. SEQUENCE CODE. The number that appears in this column (1 through 8) identifies the position of NECs on the Enlisted Distribution Verification Report (EDVR) section 8 and other documents used in personnel distribution. Appendix A, pg 2, para 6 provides guidance in determining assignment of Sequence codes.

8. RBTR. Reserve billet training requirement.

9. NR IND (Reservist Indicator). The following letters are used to categorize the attainability of NECs by inactive duty Selected Reserve (SELRES) personnel, and the assignment of NECs to SELRES personnel and manpower requirements:

A: The NEC is attainable by SELRES, and is therefore assignable to SELRES personnel and manpower requirements with no restrictions. SELRES are able to complete training for the NEC within three years of normal inactive duty training cycles of 48 regular drills and two weeks Annual Training (AT) per year (Training Category (TRC) A). The NEC can be earned by the following means:

- Active Duty formal training courses that have not been modified or segmented into modules for SELRES applications,
- Segmented or modularized formal training courses that may be completed within three years of normal TRC A training cycles (Note 1),
- Specific civilian training/certification (Note 2), or

- On-the-job training (OJT) that can be completed with three years of normal TRC A training cycles (Note 2).

Additionally, NECs are assignable to SELRES manpower requirements if the formal courses of instruction that award the NEC will be modified to facilitate SELRES completion of all requirements for the NEC within three years of normal TRC A training cycles. The requirements for periodic recertification/requalification for the NEC cannot exceed a normal, annual TRC A training cycle (Note 1).

R: The NEC cannot normally be attained by SELRES within three years or normal TRC A training cycles, but is assignable with restrictions to SELRES manpower requirements if SELRES already holding a NEC in this category can maintain periodic recertification/requalification required for the NEC within a normal, annual TRC A training cycle (Note 3).

N: The NEC is not assignable to SELRES personnel or manpower requirements because periodic recertification/requalification for the NEC cannot be maintained by a SELRES during a normal, annual TRC A training cycle. Programming of SELRES manpower requirements with these NECs is not authorized (Note 4).

Note 1: A formal training course that awards the NEC or maintains recertification/requalification may be segmented into modules if recommended by COMNAVRESFOR (Code 04), approved by CNO (N7/CNET) and certified to be funded for segmentation by the appropriate OPNAV resource sponsor. If the training agent certifies that the training course will be on line within one year, assignment of the NR IND of A is allowed.

Note 2: NECs will be awarded to SELRES personnel upon completion of civilian training courses leading to the awarding of a certificate, diploma or license, and for the completion of OJT when a waiver of formal training requirements has been requested and obtained from the appropriate training agent.

Note 3: NAVMAC (Code 20) will limit the number of SELRES manpower requirements with "R" NECs in the Total Force Manpower Management System (TFMMS) to 125% of the number of SELRES personnel in inventory holding the NEC. Requirements will be reviewed annually to ensure they do not exceed this limit, and reprogramming actions directed where necessary.

Note 4: NAVMAC (Code 20) will direct management actions to eliminate or preclude establishment of SELRES manpower requirements with "N" NECs.

Note 5: COMNAVRESFOR will annually review and coordinate the update of all SELRES NEC categories with appropriate NEC Advisors.

10. COMPONENT NEC. Prerequisite requirement for assignment of the principal NEC. A component NEC is removed once a principal NEC is assigned.

11. RELATED NEC. NEC that is not a prerequisite to the principal NEC, but is similar or identical with part or parts of a principal NEC.

12. OPEN TO WOMEN. Open: NEC is open to women. Closed: NEC is not open to women.

13. PRIMARY ADVISOR. The command or office with primary responsibility for the functional or mission area that a NEC is principally used. The Primary Advisor is concerned with all aspects of associated NECs.

14. TECHNICAL ADVISOR. The command or office having cognizance over the technical areas in which a NEC is principally used. The Technical Advisor is concerned with manpower or weapon system relationships and training requirements related to technical aspects of the NEC.

15. ECM/PERS. Pers-2 code responsible for managing the "health and welfare" and career development plans of the enlisted ratings, rates and NECs within his/her purview.

C. NEC DESCRIPTIONS

0090 Not Operationally Suitable

BM-0120 NAMTS Rigger/Weight Tester

Performs Navy Afloat Maintenance Training Strategy (NAMTS) intermediate-level maintenance procedures repairing rigging equipment, providing general rigging and manufacturing services, and weight testing equipment in support of Battle Force Intermediate Maintenance Activity (BFIMA) requirements. Demonstrates knowledge of intermediate-level repair procedures, repair and maintenance standards, quality assurance specifications, and proper use of IMA industrial machinery. Award of this NEC is based on documented completion of Fleet-specified Job Qualification Requirements (JQRs) for this skill and demonstration of advanced-level proficiency during hands-on training and production work (see www.jqr.navy.mil for current JQR). Training is led by journeyman-level craftsmen and supplemented by appropriate self-paced instruction consistent with Department of Labor journeyman certification.

OS-0318-0324 Radar Air Controller

Controls/supervises control of aircraft in tactical operations. Operates/supervises operation of radar, NTDS, communications and associated equipment in the exercise of air control functions. Participates in search and rescue and aircraft emergency operations. Ensures correct positioning of aircraft in specified areas, air corridors and approach or departure tunnels.

NOTE: Qualification, requalification and maintenance proficiency requirements for AIC, ASAC, AICS, ATACO, ASTAC and ASTACSUP personnel are set forth in OPNAVINST 1211.2 Series. Personnel who fail to maintain qualification through prescribed proficiency requirements are no longer eligible to retain the NEC. An EPMAC 1221/2 will be submitted to EPMAC (Code 49) for NEC removal. This NEC removal requirement is waived for a period of 36 months for those personnel who were previously qualified but subsequently transferred to shore duty. Personnel who requalify through formal training will have reestablished their qualification and award of the NEC.

NOTE: Previously qualified for any 335X/336X NEC but not currently assigned to a nuclear propulsion plant billet associated with the supervision, operation, and maintenance of a nuclear propulsion plant. NEC assignment determined by Chief of Naval Operations (N13). NAVMILPERSCOM INSTRUCTION 1540.1 Series and OPNAVINST 1220.1 Series (NOTAL) apply.

3363-3366 Submarine Nuclear Propulsion Plant Supervisors

Fully qualified by virtue of seniority, experience and demonstrated proficiency (including specified watchstation qualification) to supervise the operation and maintenance of a submarine nuclear propulsion plant.

NOTES:

1. Assigned upon recommendation by the Commanding Officer to Petty Officers Second Class and above who have completed six or more years active naval service and are currently qualified the specified watchstations. For paygrade E-5, the Commanding Officer should ensure all military and professional requirements for advancement to E-6 are completed before forwarding recommendation. (Include watchstation qualification dates and completion of advancement requirements on EPMAC 1221/2.)
2. Members serving in senior nuclear billets (NEC 336X) at commands where the specified watchstations do not exist are considered to have satisfied the watch qualification criteria if they were previously qualified on the required watchstations. Personnel who are advanced to CPO while serving at these commands may continue to be eligible for NEC 336X based on previous attainment of watchstation qualification required for paygrade E-6. In all cases, previous watchstation qualification must be documented in the member's service record.
3. Members with NEC 336X who are transferred to a nuclear powered ship and assigned in a senior nuclear billet will retain NEC 336X for a maximum of six months. If the member has requalified on the applicable watchstations, NEC 336X may be retained. If the member has not requalified in six months, the Commanding Officer is directed to recommend a change in NEC 336X to 335X or removal of NEC as appropriate. (See OPNAVINST 1220.1 Series for guidance.)
4. First Class Petty Officers with NEC 336X attached to nuclear powered ships who are advanced to CPO will retain their NEC while completing qualification as Engineering Watch Supervisor. OPNAVINST 1220.1 Series (NOTAL) specifies time limits for attainment of required watchstation qualification.
5. Members with NEC 3359 who are scheduled to be transferred to a nuclear powered ship are screened by Bureau of Naval Personnel (N13) per NAVMILPERSCOM INSTRUCTION 1540.1 Series. Based upon this screening, NEC 335X or NEC 336X will be assigned. Bureau of Naval Personnel (N13) will specify requalification time limits for the individual by letter to his commanding officer. NAVMILPERSCOM INSTRUCTION 1540.1 Series and OPNAV INSTRUCTION 1220.1 Series (NOTAL) apply. Commanding Officers should recommend NEC change to 335X as a step toward possible NEC removal recommendation when personnel with 336X are delinquent in requalification. (See OPNAVINST 1220.1 Series of guidance.)

6. Commanding Officers shall recommend NEC 335X in the case of those members with NEC 336X who are unable to maintain the necessary proficiency and leadership skills for continued assignment in senior nuclear power supervisor positions but who are still considered satisfactory nuclear propulsion plant operators. Those personnel who are unable to regain the necessary proficiency and leadership skills for supervisory positions should be considered for removal of their nuclear operator NEC 335X. (See OPNAVINST 1220.1 Series of guidance.)
7. On each ship there may be a few, singularly outstanding individuals who have clearly demonstrated that they are able to be effective supervisors prior to having six years time in service. In order to recognize the exceptional performance of these individuals, Commanding Officers may recommend a waiver of the six year time in service requirement to a minimum of five years time in service for supervisory NEC (336X). This recommendation will be on a case basis for those individuals who, in addition to meeting the requirements of paygrade, technical ability, and leadership, have qualified as Engineering Watch Supervisor (EWS). The waiver of the time in service requires the approval of the Bureau of Naval Personnel (N13).
8. Submit recommendations for change or removal of NECs for Enlisted Nuclear Propulsion Operators to the Bureau of Naval Personnel (N13) who will resolve the NEC change recommendation. (See OPNAVINST 1220.1 Series for additional guidance.)

NOTES:

Naval Reservists can earn this NEC by satisfactorily completing the following procedures:

1. Application for NEC 4747 should be made to the Navy Broadcast Service (NBS) and must include:
 - a. A certificate of completion of a minimum of two years vocational-technical education in broadcast engineering.
 - b. Verification of two years current full-time experience in broadcast engineering.
 - c. A two week ACDUTRA at NBS for evaluation and familiarization with Navy equipment.
 - d. An ACDUTRA performance evaluation by a NBS activity.
2. Upon receipt of all items listed above, NBS will convene a board to consider application for NEC 4747. Upon determination that all requirements are satisfied, NBS will submit the appropriate documentation to EPMAC (Code 49) recommending award of the NEC.

HT- 4942-4947 NDT Metal Specialists

NOTE: When an HT who is not currently certified in specific NDT technique is assigned to a NDT billet, certification must be established in accordance with NAVSEA 250-1500-1 and NSTM CH 074 V2 within three months of reporting on board. If the inspector/examiner fails to recertify, a EPMAC 1221/2 recommending removal of the specific NEC shall be submitted by the Commanding Officer. The NEC removal must cite the reason for the individual's failure to certify/recertify and whether the member has performed to the extent of his/her ability. If an extension of recertification time beyond three months is considered appropriate, the member's Commanding Officer shall submit a request for a maximum 3-month extension to CHNAVPERS (Pers-402). This request must discuss the reason for the extension. Subsequent to initial certification or recertification the inspector/examiner must maintain certification when assigned to an NDT billet regardless of the duties to which assigned. NECs 4942-4947 require certification. Submit EPMAC 1221/2 to EPMAC (Code 49) with a verification copy attached. Addressed requests for examiner certification to:

ENGINEERING AID

EA-5501 Construction Inspector

Reviews and analyzes project construction drawings and specifications and prepares a Construction Inspection Plan including a checklist of inspection points during critical phases of construction and installation. Verifies that all materials and/or equipment ordered meet applicable project specifications and certifies their conformance to these specifications upon receipt. Inspects all phases of construction and installation, including civil, architectural and structural, electrical and mechanical, for compliance with drawings, specifications and acceptable safe operating, installation, and construction practices. Schedules, coordinates, and observes tests on electrical and mechanical systems (includes operational tests on installed equipment) and arranges for quality control tests on such items as sub-base materials, aggregates and cementitious binders and on related mixes before, during and after installation. Prepares logs, records and reports on all inspections, and tests.

AVIATION WARFARE SYSTEMS OPERATOR

NOTE: APPLIES TO ALL AVIATION WARFARE SYSTEMS OPERATOR NECs

AW's are Naval Aircrewman (NAC) in a permanent flight status. They man sensor positions in fixed and rotary wing ASW aircraft based ashore and aboard aircraft carriers, escort vessels, and sea control ships, and serve as analysts in ASW Modules and Tactical Support Center (TSC). They also perform collateral duties in rescue and utility functions aboard multipurpose aircraft with an ASW mission. AW's who do not volunteer or are not qualified for flight must change their rating in accordance with MILPERSMAN 1220-020.

NOTES:

1. AW personnel perform in-flight duties in accordance with various aircrew positions as enumerated by the Chief of Naval Operations.
2. These NECs reflect a member's aircrew and rating standards and verify the member's entitlement to flight pay. They do not, however, authorize payment nor determine the category of payment.
3. Participation in the NAC program and the principles governing payment therefore are contained in BUPERSINST 1326.4. Compliance with this instruction is mandatory prior to submission of recommendations for these NECs.
4. Individuals should be recommended for assignment of these NECs as soon as respective qualifications are obtained.
5. Final qualification for NAC designator is not a prerequisite for assignment of these NECs. However, final aircrew qualification is a requirement for retention within the AW rating community.
6. Basic specialty NECs will be assigned upon satisfactory completion of fleet readiness squadron training. Regardless of NEC, AC designation may only be awarded after successful completion of operational standards prescribed by the Chief of Naval Operations.
7. These NECs are the primary means of identification for AW aircrew qualifications. Commands shall ensure submission of EPMAC 1221/2 to EPMAC (Code 49) immediately upon qualification for these NECs. Request for removal of any of these NECs will be submitted to CNO N13 via EPMAC (Code 49) for final adjudication. Special emphasis must be given to the accuracy of billet coding and individual identification to provide for the assignment and/or retention of aircrew within the enlisted personnel distribution system.

NAVAL AIRCREWMAN

8201-8298 Naval Aircrewmens

Personnel of various ratings assigned under a Distribution NEC of 82XX and 94XX by the Chief of Naval Personnel as Aircrew are in a permanent flight status IAW provisions of BUPERSINST 1326.4 series. They perform duties in the various aircrew positions determined by the Chief of Naval Operations in fixed and rotary wing aircraft based ashore and afloat. Members who are not volunteers for flying duty or who are not qualified for flight duties shall not retain these NECs.

NOTES:

1. These NECs reflect a member's aircrew qualifications and verify the member's entitlement to flight pay. They do not, however, authorize payment, nor determine the category of payment, or determine designation as a Naval Aircrewman.
2. Basic specialty NECs will be assigned upon satisfactory completion of readiness squadron training or command training syllabi when formalized training is not required. Regardless of NEC, NAC designation may only be awarded after successful completion of operational standards prescribed by the Chief of Naval Operations.
3. Final qualification for AC designator is not a prerequisite for NEC assignment.
4. These NECs are the primary means of identification for aircrewmens. Commands shall ensure submission of EPMAC 1221/2 to EPMAC via Pers-404E, via naval message, immediately upon qualification for the various NECs. Submit request for removal of these NECs to Pers-481 via EPMAC (Code 49) for final adjudication. Special emphasis must be given to the accuracy of billet coding and individual identification to provide for the assignment and/or retention of aircrewmens within the personnel distribution system. Selected reservists submissions shall be sent to NAVRESPERCEN (N4) for both awarding and removal of NECs.

NOTES:

1. The Defense Language Proficiency Test for CTI rating.

a. The DLPT is a Performance Test and CTIs must achieve a minimum language proficiency standard of level 2 in both reading and listening portions of the DLPT in the language which reflects their primary duty as determined by the member's Commanding Officer. To be eligible for promotion, all candidates competing for CTI2 through CTICS must achieve minimum proficiency at least once per paygrade. This requirement must be met prior to the actual advancement examination date.

b. Materials Test materials, instructions and grading criteria are held by designated command DLPT control officers or may be obtained as required from NETPDTC, Code N321, 6490 Saufley Field Road, Pensacola, Fl. 32509-5237. BUPERS (N13) (CTI ECM) can be contacted for additional information on obtaining appropriate examinations.

2. NEC Award Criteria.

a. CTI OBTAINING A SECOND LANGUAGE NEC

For obtaining secondary NECs 9192 through 9196, 9198, 9202, 9204, 9208 and 9310 through 9315, a score of L2/R2 or better on a DLPT in the NEC language or completion of the basic language course is required. Demonstrated operational experience may also be necessary before approval of secondary NEC is granted. For primary language NECs 9197, 9201, 9203, and 9211 through 9213, 9215, and 9216, the requisite Secondary Basic Language Courses (Phase I & II) must be completed.

Secondary Basic Language Courses

CTI-9310-9315 Basic Linguists

Performs duties requiring proficiency in a foreign language including use of grammar, basic, vocabulary, specialized technical and military vocabularies, and language working aids. Operates electronic equipment relating to audio digital files, computerized databases, and analytical systems.

NOTES:

1. The Defense Language Proficiency Test for CTI rating.

a. The DLPT is a Performance Test and CTIs must achieve a minimum language proficiency standard of level 2 in both reading and listening portions of the DLPT in the language which reflects their primary duty as determined by the member's Commanding Officer. To be eligible for promotion, all candidates competing for CTI2 through CTICS must achieve minimum proficiency at least once per paygrade. This requirement must be met prior to the actual advancement examination date.

b. Materials Test materials, instructions and grading criteria are held by designated command DLPT control officers or may be obtained as required from NETPDTC, Code N321, 6490 Saufley Field Road, Pensacola, Fl. 32509-5237. BUPERS (N13) (CTI ECM) can be contacted for additional information on obtaining appropriate examinations.

2. NEC Award Criteria.

a. CTI OBTAINING A SECOND LANGUAGE NEC

For obtaining secondary NECs 9192 through 9196, 9198, 9202, 9204, 9208 and 9310 through 9315, a score of L2/R2 or better on a DLPT in the NEC language or completion of the basic language course is required. Demonstrated operational experience may also be necessary before approval of secondary NEC is granted. For primary language NECs 9197, 9201, 9203, and 9211 through 9213, 9215, and 9216, the requisite Secondary Basic Language Courses (Phase I & II) must be completed.

Secondary Basic Language Courses

9192	01TH47W	9193	01JN30W
9194	01CA47W	9195	01BY47W
9196	01MY47W	9197	05SC16W
9198	01PL47W	9202	01TA47W
9204	01FR25W	9208	01AB47W
9310	01BU47W	9311	01GG47W
9312	01KU47W	9313	01PY47W
9314	01RQ47W	9315	01UK47W

3. CTI STRIKER OR CONVERTEE OBTAINING FIRST LANGUAGE NEC

For obtaining NECs 9192 through 9196, 9198, 9202, 9204, 9208, and 9310 through 9315, in addition to the Basic Language Courses listed above, the applicant must complete the Common Block Core Course A-232-0029 (CDP 6329). For other language NECs 9197, 9201, 9203, 9209, and 9211 through 9213, 9215 and 9216, the Phase II language courses as listed in this manual (NAVPERS 18068F) must be completed.

4. WAIVER REQUIREMENTS

Waivers for scores on a Defense Language Proficiency Test (DLPT) less than L2/R2 will not be routinely granted. However, waiver requests will be considered on a case by case basis in view of personnel requirements which may exist at time of request. Request should be submitted via EPMAC 1221/2 to EPMAC (Code 49), info CNO N13.

PLANNING SERIES NECS

Planning NECs are approved for planning purposes only. These NECs may be used in conjunction with Navy Training Plans, in developing planned training courses, and other applicable long-range projects. Planning NECs may be written in manpower authorizations to project requirements and used for other planning purposes; however, they are not assigned to personnel.

APPENDIX A

NEC PROPOSALS

A. INTRODUCTION

This Appendix instructions provides on how to prepare and submit recommendations for *establishing, deleting, or revising* Navy Enlisted Classification (NEC) Codes. NAVMAC processes all changes to the NEC system. Send recommendations via your chain of command and Primary Advisor (i.e., CNO N20, N43, N6, N769, N779, N789) to: Commanding Officer, Navy Manpower Analysis Center (Code 12) Naval Support Activity Memphis, Millington, TN 38054-5056. Please note that although technical merit is a primary consideration in a NEC proposal, NEC actions will always be finalized in light of resources, programming, and personnel management implications.

B. METHODOLOGY FOR ESTABLISHING NECs

1. The *Navy Enlisted Occupational Classification System (NEOCS)* Board will review and decide upon all new NEC proposals. NAVMAC is responsible for Board administration and technical assistance in developing and implementing changes to the enlisted classification system. OPNAVINST 1223.1 series details NEOCS Board composition and responsibilities. The NEOCS Board is a standing board made up of members representing the following commands:

CNO N4	CNO N6	CNO N76
CNO N77	CNO N78	CNO N95
CNO N12	CNO N13	CNO N00T
NPC-4	NPC-9	COMPACFLT
COMLANTFLT	NETC	EPMAC
*COMNAVFACENGCOM	*COMNAVSEASYSYSCOM	*COMNAVSUPSYSCOM
*COMNAVAIRSYSCOM	*COMNAVNETWARCOM	*COMSPAWARSYSCOM
*COMNAVSPECWARCOM	*COMNAVOCEANCOM	*COMNAVSECGRU
*BUMED (CNO N093)	*NPC-64	*NPC-3
*DIRSSPO	*CHINFO	*COMNEXCOM
*COMNAVCRUITCOM	*MCPON	

*Board members as designated for attendance based on topic under review. Fleet commander representatives also provide inputs from fleet units on NEOCS Board issues.

2. *Criteria for Establishing NECs.* The NEOCS Board reviews all requests for new NECs considering following technical criteria:

- a. The NEC must not duplicate Occupational Standards.
- b. Skill identification needs must be long term.
- c. Skill identification must be applicable to both billets and people.
- d. The proposed NEC must not reflect routine fleet training.
- e. There must be a need to document the skill in the Enlisted Master Record (EMR).
- f. The skill identification must be necessary throughout the Navy.
- g. The proposed NEC must reflect workload required to support new equipment.

Note: A good rule when drafting or reviewing new NEC requests is to justify the Navy's need to identify a skill over five to ten years.

3. **NEC Establishment.**

a. *Rating Series, Special Series, Alphanumeric NECs.* Figure 1 identifies the information and format required to establish a Rating Series, Special Series, or Alphanumeric NEC. Submit recommendations to establish a NEC code 180 days before the date the NEC is to be awarded, i.e., 180 days before completion of initial course/factory training. Requests, which involve mandatory training, should address resource implications.

b. *Planning NECs.* Figure 1, paragraphs 1.a., c., h., k., r., s., t., and u. identify the information and format required to establish a Planning NEC. Submit recommendations to convert Planning NECs to Rating Series, Special Series, or Alphanumeric NECs 180 days before the date the NEC is to be awarded, (i.e., 180 days before completion of initial course/factory training) using all components of Figure 1.

Note: Submit requests for all NECs (including Planning NECs) via your chain of command and the Primary Advisor. See Chapter IV, NEC descriptions, for Primary Advisors. Copy to EPMAC (Code 49).

4. **NEC Cancellation.** All recommendations to cancel a NEC code must state the reason or rationale for cancellation and any required billet or personnel recoding action. Use standard Naval letter format or E-Mail when submitting requests for NEC cancellation.

5. **NEC Revision.** All recommendations to revise a NEC code must identify the proposed change and state the reason or rationale for the revision. Revisions which involve a change from OJT to course mandatory training also should address resource implications. Use standard Naval letter format or E-Mail when submitting requests for NEC revisions.

Subj: PROPOSAL TO ESTABLISH A NAVY ENLISTED CLASSIFICATION (NEC) (place the rate abbreviation and the first two digits and two Xs (e.g. ET-14XX) and the title here)

Ref: (a) NAVPERS 18068F, Volume II (NECs)
(b) List references that relate to this proposal

1. Request establishment of a new NEC code per reference (a).

a. NEC Code and title. Recommend a NEC code number and a title. Use the rate abbreviation and the first two digits of the proposed code and two Xs (e.g., ET-14XX).

b. Sequence Code. Recommend a sequence code for prioritizing the NEC on the Enlisted Master Record. See Chapter I paragraph C.4 for sequence code discussion.

c. Description. Describe the proposed NEC--identify the job tasks to be done--particularly what skill the NEC provides that is not associated with a rating.

d. Source Rating(s). List the rating(s) associated with the NEC (e.g., BM only, BM and SM, or BM, QM, SM, GM).

e. Component NEC. Identify any prerequisite skill(s) (Component NEC) that a member must have before earning the proposed NEC, if any.

f. Related NEC. Identify existing NEC(s) similar in scope to the proposed NEC (Related NEC), if any.

g. Cost Analysis. What will be the **net effect** on students IA in terms of manyears (MPN only)?

NOTE: MPN manyears in the student IA are calculated by multiplying course length in days by number of students and dividing that by 360 for initial training in manyears. This figure is divided by 3 for approximate follow-on, per-year cost for out years.

course length in days * number of students	MPN
MPN = -----	Approx follow-on = -----
360	3

h. Training. List the training needed to earn the proposed NEC, the implications it may have on TAD training, and the impact it may have on increasing overall cost to the Navy in the out-years.

- (1) Identify whether the NEC will be awarded through formal training or through OJT.
- (2) State whether the course is new or on-going. If new, state the ready-for-training date.
- (3) List CIN/CDP when a formal training course is required. If CIN/CDP is unknown, list training as "under development."
- (4) List the length of training (in days).
- (5) Any establishments, revisions etc., to CIN/CDP should be addressed to NETC.
- (6) Increase/savings to course length.
- (7) Will difference course be required?
- (8) Can this be done through non-traditional training sites, or by internet-based course?
- (9) How does this fit into Navy Training System Plan (NTSP)? (Contact appropriate SYSCOM for info)
- (10) If this is replacing another NEC or school, to what percent? How many personnel went through previous NEC, and how long was the course? (manyears)
- (11) How many personnel are intended to go through per year? (Contact CNO (N00T))

Note: Unless otherwise directed, the originator of a request for establishment of a NEC is responsible for ensuring entry of proper course data into the Navy Integrated Training Resource and Administration System (NITRAS) as an integral part of the process.

- i. Number of Billets. Identify the approximate number of billets requiring the NEC.
- j. Personnel Paygrade. Identify the paygrade range for personnel who will hold the NEC (e.g., E4 - E5, E6 - E9).
- k. Billet Paygrade. Identify the paygrade range for billet identified with this NEC (e.g., E4 - E5, E6 - E9).
- l. Special Qualifications. Identify special qualifications associated with the NEC. (i.e. a security clearance, 20/20 vision, certification)
- m. Skill Identification. Indicate whether the proposed skill (NEC) currently exists as part of a rating or another NEC.
- n. Assignment (Open/Close). Indicate whether the proposed NEC is "Open" or "Closed" to Women.
- o. Inactive Duty Select Reservists. Identify the applicable inactive duty Selected Reserve (SELRES) category for the NEC from the following listing and provide supporting rationale. Coordinate your recommendation with CNO (N951G).

Category "A" The NEC is attainable by SELRES, and is therefore assignable to SELRES personnel and manpower requirements with no restrictions. SELRES are able to complete training for the NEC within three years of normal inactive duty training cycles of 48 regular drills and two weeks Annual Training (AT) per year (Training Category (TRC) A). The NEC can be earned by the following means:

- Active Duty formal training courses that have not been modified or segmented into modules for SELRES applications,
- Segmented or modularized formal training courses that may be completed within three years of normal TRC A training cycles (Note 1),
- Specific civilian training/certification (Note 2), or
- On-the-job training (OJT) that can be completed with three years of normal TRC A training cycles (Note 2).

Additionally, NECs are assignable to SELRES manpower requirements if the formal courses of instruction that award the NEC will be modified to facilitate SELRES completion of all requirements for the NEC within three years of normal TRC A training cycles. The requirements for periodic recertification/requalification for the NEC cannot exceed a normal, annual TRC A training cycle (Note 1).

Category "R" The NEC cannot normally be attained by SELRES within three years or normal TRC A training cycles however, is assignable with restrictions to SELRES manpower requirements if SELRES already holding a NEC in this category can maintain periodic recertification/requalification required for the NEC within a normal, annual TRC A training cycle (Note 3).

Category "N" The NEC is not assignable to SELRES personnel or manpower requirements because periodic recertification/requalification for the NEC cannot be maintained by a SELRES during a normal, annual TRC A training cycle. Programming of SELRES manpower requirements with these NECs is not authorized (Note 4).

Note 1: A formal training course that awards the NEC or maintains recertification/requalification may be segmented into modules if recommended by COMNAVRESFOR (Code 04), approved by CNO (N7/NETC) and certified to be funded for segmentation by the appropriate OPNAV resource sponsor. If the Training Agent certifies that the training course will be on line within one year, assignment of the NR IND of A is allowed.

Note 2: NECs will be awarded to SELRES personnel upon completion of civilian training courses leading to the awarding of a certificate, diploma or license, and for the completion of OJT when a waiver of formal training requirements has been requested and obtained from the appropriate Training Agent.

Note 3: NAVMAC (Code 20) will limit the number of SELRES manpower requirements with "R" NECs in the Total Force Manpower Management System (TFMMS) to 125% of the number of SELRES personnel in inventory holding the NEC. Requirements will be reviewed annually to ensure they do not exceed this limit, and reprogramming actions directed where necessary.

Note 4: NAVMAC (Code 20) will direct management actions to eliminate or preclude establishment of SELRES manpower requirements with "N" NECs.

Note 5: COMNAVRESFOR will annually review and coordinate the update of all SELRES NEC categories with appropriate NEC Advisors.

p. Endorsements. The primary advisor/CNO (N00T) should **look** at all cost associated with the establishment/revision and **provide** a cost estimate for the establishment/revision and **agree** to assume all associated cost. If TAD cost are associated with the establishment TYCOMS should be **notified and agree** to assume any associated TAD cost.

NOTE: Originator is responsible for contacting appropriate commands for this info.

- q. Directives. Identify special directives associated with the NEC, such as instructions or manuals.
- r. Justification. Explain the purpose of the proposed NEC and how it will impact manpower increases/decreases. Be specific as possible.
- s. Platform/Equipment. Identify the new platform(s) and/or equipment the proposed NEC will support.
1. Identify the "phase in" period for new platform(s), equipment, and training.
 2. Is the proposed NEC replacing an existing NEC? If yes:
 - a) when is the old platform(s) or equipment no longer in service; and
 - b) identify the date the NEC being replaced may be deleted.
- t. Point of Contact. Identify the name, telephone number (commercial and DSN), and E-Mail address of a person knowledgeable about the proposed NEC.
- u. Occupation Standards. When requesting establishment of a Rating Series NEC, indicate whether the proposed NEC does or does not duplicate existing Occupational Standards for the rating involved, NAVPERS 18068F, Volume I identifies rating specific occupational standards.
- v. Workload Measurements. When requesting the establishment of a NEC, identify workload levels for each new equipment. The work may be generated either by watch station requirements, Planned Maintenance (PM), Corrective Maintenance (CM), or by other specific mission essential elements. The work could be supported by any combination of the preceding types of workload.

Notes:

1. Paragraph s. is applicable for NECs proposed to support new equipment.
2. Each new skill code shall be evaluated by CNO (N122) when the equipment or system is fully developed.
